Senior Design Status Report (Page 1)

Project Name:	Music Matters Booking System
Team Members:	Chase Dumbacher, Sarah Pham, Austin Mongold, Austin Newkirk
Date:	2/5/2021

Cycle: 1

System Metaphor: To design and create an app and online calendar booking system that is capable of recording and organizing artist names, performance time and dates, and venue names as well as automatically creating and emailing invoices and confirmation documents.

Cycle Intent: Begin bug fixing the iOS app and allowing Mike to begin testing it as well as setting up the main pages of the website and getting it to a demo-able point

		Planned			Actual	
#	User Story	Cycle planned for	Total planned hours	Planned hours this cycle	Status	Actual hours this cycle
1	Database To App/Web Sync	2	20		Unstarted	1
2	Create Website Framework	1	10	5	Collaboration	5
3	Website Login With FireBase Auth	1	3	3	Completed	3
4	Allow Full Cross Platform Usage	3	40	0	Collaboration	
5	Easy To View Calendar	2	10	0	Unstarted	
6	Reliable Data Transfer	3	10		Unstarted	
7	Quick Load Times	3	5		Unstarted	
8	Clean User Interface	2	20		Unstarted	
9	Offline Support	3	30		Adversarial	
10	Quick Restart	2	15		Unstarted	
11	Functional Web Pdf Builder + Emailer	2	30		Unstarted	
12	Functional App Pdf Builder + Emailer	1	15		Collaboration	14
13	Bug Fix iOS App	2	40		Collaboration	14.5
14	Refactoring iOS App	2	40		Collaboration	10
	Planned Total		288	8	**Actual Total**	47.5

Total hours
1
5
3
14
14.5
10
47.5

Note : These hours are slightly off the total of the app team's combined page 2 hours because process and customer meetings aren't apart of any particular user story
